

The EFQM Excellence Award 2016

Discover the outcome of this challenging process!

The Assessment and Recognition scheme offered by EFQM, as part of its portfolio, provides organisations with a challenging and independent assessment of their performance across the EFQM Excellence Model at any point of their continuous improvement journey. It culminates with the EFQM Excellence Award Programme (EEA) which recognises Role Model organisations in Europe and beyond. Reviewed last year to deliver the highest added value possible to organisations entering it, the Award is supported by one of the most challenging assessment process, making the recognition even more prestigious.

This year, a first batch of Applicants took part in the reviewed Award process and we would like to congratulate them on their great performance! They all are Role Model organisations from which we can learn from! Well done!
